Case No. 3:20-cv-04926 CRB

**DECLARATION OF LOUIS P.  
FEUCHTBAUM IN SUPPORT OF  
PLAINTIFFS' OPPOSITION TO DEXON  
COMPUTER, INC.'S MOTION TO  
DISMISS**

Date: November 19, 2020

Time: 10:00 a.m.

Courtroom: 6, 17th Floor

Judge: Honorable Charles R. Breyer

1 I, LOUIS P. FEUCHTBAUM, hereby declare that I am an attorney at law, licensed to  
2 practice before all Courts of the State of California. I am a Partner at the law firm of Sideman and  
3 Bancroft, LLP, counsel of record for Plaintiffs Cisco Systems, Inc. and Cisco Technology, Inc. in  
4 the above-captioned matter. The following facts are based upon my own personal knowledge,  
5 except for those facts stated on information and belief, and as to those facts, I believe them to be  
6 true. If called as a witness, I could and would competently testify to the following:

7 1. Attached hereto as **Exhibit A** is a true and accurate copy of an email between  
8 Dexon Computers, Inc. (“Dexon”) and Arbitech, LLC that Dexon filed as an attachment to a  
9 declaration in other litigation against Cisco. This email reports a complaint by Dexon about a  
10 product that Dexon had apparently acquired from Arbitech.

11 2. Attached hereto as **Exhibit B** is a true and accurate copy of a spreadsheet that was  
12 obtained from data that non-party PureFutureTech (“PFT”) provided to Cisco through discovery in  
13 the matter of *Cisco Systems, Inc. et. al. v. Zahid “Donny” Hassan Sheikh, et. al.*, Case. No. 4:18-  
14 cv-7602 YGR (N.D. Cal.) (“Sheikh Litigation”). It shows the purchases that Dexon made from  
15 PFT during the period from January 2017 through June 2019. Cisco prepared by this spreadsheet  
16 by extracting all data that is related to Dexon without manipulating that data.

17 3. Attached hereto as **Exhibit C** are a true and accurate copies of invoices that PFT  
18 produced to Cisco in the Sheik Litigation. These invoices are responsive to an inquiry that sought  
19 invoices that show PFT’s resale of Cisco products that PFT had procured from HongKongSells  
20 (“HKS”), an entity based in China. Based upon my own personal knowledge of entities who  
21 engage in a significant amount of counterfeit trafficking, HKS is reputed to sell products that are  
22 predominantly counterfeit. Exhibit C shows that Dexon acquired 31 products from PFT that had  
23 been sourced from HKS.

24 4. Federal law enforcement provided Cisco with various documents related to a  
25 reseller of computer equipment who conducted business from Anaheim, California during the  
26 course of that agency’s investigation into counterfeit trafficking. Cisco will provide all of those  
27 documents for the Court’s *in camera* inspection, if desired. It will also provide them to Dexon’s  
28 counsel, subject to entry of an adequate protective order. I have personally reviewed those

documents and provide the following information on personal knowledge, based upon my personal review of them:

a. Attached hereto as **Exhibit D** is a spreadsheet that accurately records data that was obtained from the documents provided to Cisco by the government. It identifies by Product ID number every Cisco product that Dexon purchased from Anaheim, the quantities purchased, and also Dexon's purchase price. In addition, for purposes of analysis, Cisco has added data reflecting the "Global List Price," or "GLP," for these products. I prepared the columns that contain computations for the percentage discount off of GLP that Dexon paid for each of these products.

b. I have personally reviewed reports on 6 of these products that Dexon procured from Anaheim, which reports were prepared Cisco engineers who examined those products. Those engineers concluded that all 6 of these products are counterfeit in that each bore a Cisco registered trademark that is identical to or nearly indistinguishable from Cisco's actual registered trademarks, and that the trademarks had been affixed to the products without Cisco's permission or authority. An engineering analysis revealed that the products were not manufactured under Cisco's authority in that they possessed significant variations from genuine Cisco products. Cisco will provide all of those documents for the Court's *in camera* inspection, if desired. It will also provide them to Dexon's counsel, subject to entry of an adequate protective order. I have also reviewed copies of documents that we received from the entity who purchased these counterfeit products from Dexon. They show that the counterfeits had been provided to the U.S. Navy in Guam. They also indicate that Cisco sold SMARTnet contracts on 3 of these counterfeit products. Cisco's internal records indicate that Dexon had procured those particular SMARTnet contracts from the Anaheim reseller. Cisco will provide all of those documents for the Court's *in camera* inspection, if desired. It will also provide them to Dexon's counsel, subject to entry of an adequate protective order.

5. Many of the details about how Cisco's SMARTnet program works can be found at [https://www.cisco.com/c/dam/en\\_us/about/doing\\_business/legal/service\\_descriptions/docs/SMARTnet.pdf](https://www.cisco.com/c/dam/en_us/about/doing_business/legal/service_descriptions/docs/SMARTnet.pdf).

6. I have personally reviewed Dexon’s website since at least sometime in 2009. Archived pages from Dexon’s website show that it has maintained a website since at least 2006. Dexon’s present website offers visitors the ability to submit inquiries regarding their purchase of products, including Cisco products, and it also provides a “Pay Portal” through which purchasers in California can submit payment to Dexon. On information and belief, based upon my earlier reviews of Dexon’s website, the functions that allow visitors to make product inquiries and to submit payment have been operable at all times relevant to Cisco’s complaint.

7. Cisco maintains records that show the identity of people who log into its website by their some or all of the following: Cisco user ID, email address, IP address, and other identifiers. It also records the date and time that each visit was made, the web pages the user accessed, and any software downloads. Cisco has prepared extracts of this data to show visits made by Dexon. Based upon my review of that data, I can attest that during the period from March 2018 through February 2019, Dexon accessed over 3,100 webpages that Cisco maintains on its website for the purpose of providing product information and technical support, among other things, on over 465 different occasions. These contacts included requests for technical assistance on counterfeit Cisco products that Dexon was attempting to sell. Further, between December 2012 and February 2019, Dexon has downloaded software from Cisco’s servers on at least 172 occasions, including software that Cisco believes was intended for installation on counterfeit Cisco products.

8. At about 3:20 p.m. on October 15, 2020, I received an ECF notification that Dexon’s counsel had filed a “Notice of Non-Receipt of Opposition to [Dexon’s Motion to Dismiss].” [Doc. 21] That notice mistakenly indicated that Cisco had not filed a response to Dexon’s Motion to Dismiss within the time allowed. *Id.* It asked the Court to deem Cisco as having consented to the motion, and to dismiss Cisco’s complaint. *Id.*

9. Shortly after receiving this notice, I personally contacted Amanda Washton, Dexon’s counsel who filed the notice, via telephone at her office, to inform her that Cisco’s response to the motion was not due until October 16th, as indicated in the docket. The October 16th response deadline is indicated on the “Deadlines/Hearings” page of the PACER listings for

1 this action. I have attached a true and accurate copy of that page as **Exhibit E**. I requested that  
 2 she withdraw Dexon's notice and its request for summary dismissal of this action.

3 10. In response to my request, Ms. Washton told me that she had seen the October  
 4 16th deadline for Cisco's response on the docket, but that she regarded that deadline as invalid.  
 5 Ms. Washton denied Cisco's request to withdraw the notice and indicated that Cisco should raise  
 6 any concerns it has with the court. I promptly notified this Court's Courtroom Deputy, via email,  
 7 that Cisco would be timely filing its opposition. A true and accurate copy of that email is attached  
 8 as **Exhibit F** to this Declaration.

9 I declare under penalty of perjury under the laws of the United States of America that the  
 10 foregoing is true and correct.

11 Executed October 16, 2020 at Berkeley, California.

Hey Glenn –

I need some help on this.

The end user tried to get them placed under smartnet, but reports

In regards to the switches that I just purchased -- the WS-C3850-12XS units (S/N: FCW2140C09Q, FOC2118X0SE) -- I am unable to add either to my Cisco SmartNET agreement. My VAR is telling me that they both have a "compliance status issue" related to the end user in India.

Do you have ones I can exchange for, or if not, may I have an RMA, please?

Thanks

Joe

**Subject:** Filing in Cisco Systems, Inc. v. Dexon Computers Inc. (Case No. 3:20-cv-4926)

Dear Ms. Scott,

Earlier today, counsel for Dexon filed a notice that mistakenly claimed Cisco had failed to timely file a response to Dexon's Motion to Dismiss. Cisco will be filing its response tomorrow, which is the deadline for Cisco's response that is indicated on the docket.

Respectfully,

**Louis P. Feuchtbaum**  
Partner
